Dear Partner,

In this edition, we highlight the impactful training sessions carried out by our partners in France, Greece, Luxembourg, and Italy as part of Work Package 3, equipping educators and youth workers with essential tools to combat bullying.

WORK PACKAGE 3 IN ACTION!

Our commitment to tackling bullying extends beyond awareness—it's about equipping youth workers with the right tools to create safer environments for young people. As part of Work Package 3, partners in Luxembourg, France, Greece, and Italy have successfully delivered the course "Effective Practices and Tools to Prevent and Address Bullying in Youth Work." The impact? Stronger youth work practices, safer spaces, and a growing network of professionals committed to ending bullying.

ANTI-BULLYING TRAINING ACROSS EUROPE

In France (RESOPA), trainers and teachers were empowered to address bullying in schools. Italy (Microkosmos) emphasized emotional intelligence, self-awareness, and empathy. Luxembourg (Cocoinut Luxembourg) strengthened the capacity of youth work trainers to handle bullying situations effectively. Greece (MYARTIST) focused on creative approaches to prevent bullying, using arts and expression as tools for awareness and intervention.
